

## BIOTECON Diagnostics: the company for real-time PCR Kits in the food testing market

### *For safer food – BIOTECON Diagnostics: simply builds up trust*

BIOTECON Diagnostics has been well known as a qualified partner in the field of molecular and microbiology for the last 12 years. We focus on development, production and marketing of PCR-based rapid detection technologies. BIOTECON Diagnostics offers solutions for the food and beverage industry as well as for producers of pharmaceuticals and cosmetics.

To meet the demands of our customers, we have achieved various accreditations, certifications and approvals.

## Test our products free of charge!

As a special campaign for promoting our revised website, we are offering new industrial clients the possibility to **test our products free of charge!**

By sending back this form **before August 30, 2010**, you will receive one kit for sample preparation and one real-time PCR Kit (for 96 reactions) free of charge for your PCR instrument of choice. There are no further obligations. You just pay the delivery costs. Only one free order per new company account is possible.

### Your personal gift!

Additionally a 2 GB USB Stick is waiting for you as a personal gift once you send the reply form.

Please make a choice from the attached products on page 2 and send back the completed form by e-mail to [bcd@bc-diagnostics.com](mailto:bcd@bc-diagnostics.com) or by fax to +49 (0)331 2300 269. All information must be provided to receive this offer.

**YES, I would like to order the following kit for testing free of charge.**

**Please select your instrument:**

- LightCycler® 1.x
- LightCycler® 2.0
- LightCycler® 480
- Other instrument (based on **TaqMan**® probes). Please specify your model: \_\_\_\_\_

**Please select your requested foodproof® Real-time PCR + Sample Preparation Kit**  
(only one per column free of charge):

**1. Real-time PCR Kits**

- Beer Screening Kit
- Brucella* Detection Kit
- Campylobacter* Quantification Kit
- Campylobacter* Detection Kit
- Dekkera* Quantification Kit
- E. coli* and *Shigella* Detection Kit
- E. coli* O157 Detection Kit
- E. sakazakii* Detection Kit
- Enterobacteriaceae* plus *E. sakazakii* Detection Kit
- GMO Maize Quantification Kit
- GMO Screening Kit
- GMO Screening Kit (35S, NOS, bar, FMV)
- GMO Soya Quantification Kit
